

## Congreso Internacional **Psicología** **Artes escénicas**

Perspectivas científica y profesional

16, 17 y 18 de septiembre de 2021  
Facultad de Psicología de la UNED. Madrid (España)

## Metodology

Although the current pandemic situation forces us to schedule the celebration of CIPAE2021 in a virtual format, if circumstances allow it, some activities could be face-to-face. Decisions regarding the same will be made in August 2021. Until then, we will offer information on this website regarding the virtual methodology that we will use and, where appropriate, it would be complemented with face-to-face assistance.

The headquarters of the congress is the Department of Psychology of the UNED, in the Ciudad Universitaria of Madrid (Spain).

During the Congress, only the members of the Organizing Committee and some of the speakers (who participate by giving conferences, coordinating symposia or round tables) may be present at the headquarters of the CIPAE2021.

Congressmen (both those who present contributions and those who participate with their attendance) will attend thanks to the telematic tools that will be available for it. That's why it will be necessary to have internet connection and it is recommended to have a webcam and a microphone.

There will be four virtual activity rooms: some of them will offer simultaneous activities, so that each congressman can choose those that are most interesting. Most of the activities will be recorded and will be available once over, so that the participants in this congress will be able to access (including the live shows and the recordings) to all the activities scheduled.

Since speakers can give their presentations in both English and Spanish, the activities will be subtitled (Spanish -> English or English -> Spanish).

The congressmen will be able to interact with the speakers simultaneously (while the activity is taking place), by chatting or using video and audio tools, thanks to the

connections of the videoconferencing platform that we will use. The congressmen can also contact each speaker asynchronously.

The congress will take place in four virtual rooms: The Main Room (Principal), the Emotions Room (Emociones), the Movement Room (Movimientos) and the Thoughts Room (Pensamientos).

The program will indicate the activities and schedules of these rooms, in some cases the rooms will schedule simultaneous activities. Access to these rooms will be done using the passwords that the congressmen will receive by email with all the necessary technical and formal indications for telematic participation in the congress.

## **PRELIMINARY INFORMATION ABOUT POSSIBLE ATTENDANCE**

The possibility of attending in person will be decided in August 2021. Those who, when registering for CIPAE2021, indicate their desire to attend in person will be invited in order of application until the capacity allowed by legal regulations at that time is fulfilled.

Since the usual restaurant services will not be available in the campus, attendees will be able to purchase tickets for coffees and lunch (€ 60, which must be paid when collecting the credentials) since this service is not included in the registration price to congress.
